

The Daily Courant.

Friday, October 8. 1714.

From the Amsterdam Courant, dated Oct. 4. 9.

Vienna, September 19.

BA R Q N Gortz and Count Reventlau, the Holstein Ministers, have received Letters dated the 29th of August, which say that the King of Sweden would certainly set out from Turkey the 1st of October, being in daily Expectation of the Arrival of his Minister Grothaus with the Money he shall want. And Yesterday we had News from Constantinople, that that Minister received his Audience of Leave from the Grand Vizier the 31st of July, and that the King of Sweden would begin his Journey the last of this Month, under the Conduct of two Capigl Bassa's and two Companies of Janizaries, through Walachia to the Frontiers of Transilvania, where the Imperial Goverour of that Principality, General Steinville, will receive his Majesty, and reimburse to the Turks the Expences of their Journey to that Place. General Leffelhultz, Goverour of Peterwaradio, writes, that the King will not take his Way by that City and Belgrade, but by Tergovista; and that by the Middle of October he may be expected in the hereditary Countries. 'Tis said that when his Majesty arrives in the Emperour's Dominions, he will pass privately, and in Post with a small Retinue through Germany to Deuxponts; nevertheless we are assured that an Imperial Commissary is ordered to go and receive his Majesty on the Frontiers of Transilvania, and conduct him through all the hereditary Countries at the Emperour's Charge.

Vienna, Sept. 26. Baron Goertz and the Swedish Resident Sternhoeck have been several times in Conference with Prince Eugene of Savoy, upon the Subject of the King of Sweden's Passage through the Emperour's hereditary Countries; and we understand that the Resident having asked Leave to send one of our Expresses to Demotica to inform the King his Master what has passed in these Conferences, it was granted, and in the Passport for that Express it is declared, that he carries Dispatches of the greatest Importance.

From the Hague Courant, dated Oct. 12.

Stockholm, Sept. 22. The Report that was spread here for some Days, that there had been two several Actions between General Ahrenfeld and the Enemy, is not confirmed; the Letters received once mentioning only that some Skirmishes had been made between the advanced Parties, wherein the Loss on either Side was not considerable. General Meyerfeld in this Day departed hence to go to the Army, where he is to give some Orders, and then to go on board the Fleet, to hold a Council of War with the Commanders of the King's Ships, to consider of what is proper to be undertaken by Sea against the Russians. The Squadron under Vice-Admiral Lille has received great Damage by a Storm; most of the Ships were driven from their Anchors; the Ship Riga was driven a-shoar, having lost all her Anchors and Cables; the Wachtmeester lay also a-ground in dangerous State, but the Revel got off again from a Rock she was cast on, and the Phenix was very much shattered, but saved. We know not yet whether the Enemy's Fleet was then at Sea and suffered by this Storm. The Dutch Ship the St. Laurence is taken by our Privateers in the Road of Riga, and brought hither. 'Tis said that three others are taken, notwithstanding that all these Ships had the Permission of this Government to sail to Riga. The Ship of Gerrit Blom, which was taken near Windan and brought hither, has

been released, upon the Master's making Oath that he would not go to Riga. The Brunswick Secretary has by Order of his Court given in a Memorial to the Princess Eleonora and the Senate, to notify the Accession of King George to the Crown of Great Britain; declaring also, that as his Majesty is now more than formerly in Condition to forward the Peace of this Kingdom, he would testify by his good Offices how much he has the Welfare of Sweden at Heart. The Princess has not for some Days past appeared in Council, although she be in good Health.

From the Hague and Amst. Cour. dated Oct. 5. 6.

Hague, Oct. 4. Monsieur Clingraef, the Brunswick Resident, received this Day an Express from Hanover, with Advice that her Royal Highness the Princess, with her Children, intended to set out the 9th Instant for Holland, on her Journey to England.

From the Hague Courant, dated Oct. 10.

Hague, Oct. 9. The French Ambassador, the Marquis de Chateaneuf, has been thanked in the Name of the States-General for his good Offices in forwarding the Exchange of the Ratification of the Treaty of Peace between this State and Spain. And the Heer Buis, Ambassador of this State at the French Court, has Orders in like Manner to thank the most Christian King for his favourable Assistance therein. The French Ambassador's Gentleman, who went hence last Friday with the exchanged Ratification, was set upon and Robbed on Saturday about three Leagues distant from Antwerp.

From the Brussels Gazette, dated Oct. 12.

Brussels, Oct. 12. We hear from Antwerp, that on the Day the first Conference was held between the Plenipotentiaries of his Imperial and Catholick Majesty and those of the States General, his Excellency Count Coningeck treated splendidly at Dinner all the Plenipotentiaries and divers other Lords. The Conferences have since been regularly held in the Forenoon between the Hours of 9 and 12. Two Days ago the States of Brabant assembled in this City, to deliberate upon the Proposition for a Subsidy made in the Name of his Imperial and Catholick Majesty, and in that Session the Bishop of Antwerp was Sworn, and took his Place.
